SUBJECT: State Emergency Fund

Pursuant to HB 2579, which amends 63 O.S. 2001, Section 683.4, and became effective November 1, 2010, I respectfully submit my third quarterly report regarding the balance and outstanding obligations of the State Emergency Fund.

**Background:** The State Emergency Fund is used by this department to match 12.5% of reimbursement to counties, cities, towns and eligible private non-profits for infrastructure damages receiving federal assistance under a Presidential Disaster Declaration. It is also used to cover infrastructure damages authorized by a Gubernatorial Disaster Declaration and extraordinary response costs requested by state agencies (i.e., National Guard helicopter missions for firefighting, stranded motorist assistance, etc.)

As of June 30, 2011, all available funds have been transferred from the Office of State Finance and deposited into Oklahoma Emergency Management (OEM) funds. Therefore, the current State Emergency Fund balance is as follows:

OEM Fund 200 Transportation Damages		OEM Fund 424 Non-Transportation Damages	
3/31/11 Balance	883,993.74	3/31/11 Balance	1,022,689.18
Quarterly Expenditures	238,811.37	Quarterly Expenditures	14,443.71
6/30/11 Balance	645,182.37	6/30/11 Balance	1,008,245.47

Estimates of outstanding obligations are included on the next page. I have intentionally separated Electric COOPs from other eligible applicants and have advised them that they would be last to receive their state 12.5%, after counties, cities and towns. It should also be noted that these estimates will change as large projects (over \$63,200) will be reimbursed after completion and to the actual dollar figure.

Please contact me on my cell phone ( [REDACTED] ) anytime, should you have any questions.
